

ENOUGH is ENOUGH!

Tuesday, August 16, Starting at 10 AM

Rally & Press Event to Demand the L.A. County Board of Supervisors Support Probation!

- An average of **25 officers a month** are being assaulted by justice-involved youth in L.A. County Probation facilities every single month. That's **98% more assaults** than our Sisters and Brothers at Orange County Probation. And we are **15 times more likely** to be assaulted than those working in LASD* facilities.
- While youth on staff assaults are escalating, **our profession is under attack** by our very own bosses – the L.A. County Board of Supervisors.
- This was bad enough, but now the County has posted three positions in the newly-created Department of Youth Development (DYD) – Ambassador, Specialist, and Supervisor – **to do EXACTLY what we are already doing.**
- But **no degrees** are required. **No criminal background checks.** And applicants need just one year of experience (two years for the Supervisor).
- Meanwhile, the pay range for these DYD positions is **19-46% more** than professional, trained, and degreed Probation Department employees are making!

Probation Department*		Dept. of Youth Development**		Difference
